Website Consent Form

Background
Windsor High School is committed to providing students with the best in educational resources and technology. Toward this end, the School utilizes a variety of websites and web-based applications to supplement curriculum, teach 21st century skills, and provide interventions.

Privacy Laws
The School’s use of some particular websites is subject to two important privacy laws, the Family Educational Rights and Privacy Act ("FERPA") and the Children’s Online Privacy Protection Act ("COPPA"). FERPA protects the privacy of education records, including student class work or assignments that are stored or performed on certain websites. Pursuant to FERPA, the School may not disclose such records without parental consent except in limited circumstances. COPPA requires commercial website operators to get parental consent before collecting any personal information from children under the age of 13. COPPA allows, but does not require, schools to act as agents for parents in providing consent for the online collection of students’ personal information within the school context.

Because the School’s use of the sites listed below potentially involves online storage of student school work and/or the collection of personal information from students under the age of 13 (usually first name, last name, grade level and username), the School requires written parent/guardian consent for students to use these sites. Parent/guardian consent is entirely voluntary. However, students who do not have permission to use the sites will be unable to access or participate in some of the activities conducted online.

Sites
During the 2020-2021 school year, the School may direct students to use the following sites:
